

Statement on the war in Ukraine
by the Pentecostal Nordic Fellowship

Pray for the peace of Ukraine

Our hearts are saddened and burdened by the aggression from the Russian national leadership towards the people of Ukraine. There are no geopolitical, military, economical, cultural or even spiritual reasons to justify this intervention.

The people of Ukraine deserve the support of the outside world and are in their full right to defend themselves against Russian aggression. Sanctions are needed but we have to restrain hate and thoughts of revenge. We pray also for the many Russians who because of the ill fated actions of their political leaders will have to suffer the resulting consequences. May Ukraine soon regain peace and possibilities to sow seeds of faith in the future in their fertile land.

- We stand in line with all voices asking for an immediate ceasefire in Ukraine
- We call upon all christians at large and pentecostals in particular to pray severely to God and also fast during this serious time of our history
- Let us open our hearts and give whatever we can in financial support, food and shelter
- Let's all do our uttermost to be carriers of peace in whatever circumstance we can have impact

Pray for the peace of Ukraine!
